GENERAL COURSE INFORMATION

ENTRY ADVICE

The Certificate III in Business Administration meets the current and future competency and development needs of new and existing personnel employed in a broad range of work functions and activities within a business environment.

All learners require the ability to read, write and speak in English intelligibly. For native English speakers, the required competencies are checked via an interview, completion of a formal written application form, and a resume outlining qualifications and experiences.

Non-native speakers need to demonstrate that they can speak at length with minimal loss of coherence and minimal mispronunciation; they possess a wide enough vocabulary to discuss topics at length; they paraphrase successfully; frequently produce error-free sentences; and can be understood by children, parents and staff members. Students in this category may be accessed via completion of Australia City College's internal Language Literacy and Numeracy test paper.
